

CS4500 Software Development

Final Deliverables Team 26

Overall Feedback

Very solid presentation and solid job overall.

Comments on the System Setup Video

Video was considerably longer than expected (Approx. 10 mins). Very well explained but should have kept it short and concise and only related to system setup rather than explaining code base.

Comments on the System Demo Video

Video clearly explains each use case and is professional

Comments on the Problem Overview

Very well written

Comments on Result Overview

Metrics like number of use cases completed; Jira tasks and devops tasks were presented.

Comments on Result Overview

The report identifies where the team succeeded in process and why they lacked on some aspects.

Comments on the Retrospective

The report mentions about the entire experience in detail. Clearly identified why they could not accomplish tasks they had planned to.

Comments on use cases

Clearly identified the work completed and the work not completed for each use case. Each use case is quite detailed.

Comments on UML diagrams

Clearly identifies the flow of the application. Good Job here.

Comments on live system

Was able to try all the mentioned functionalities very easily. Overall a Good Job.
